

Aug 19, 2021

Dear Sir or Madam,

My name is Richard Scales. I am incarcerated at Ft. Dix. On July 5th, 2021, I had a telephone hearing with Judge Sheridan concerning my motion for compassionate release based on Covid-19. Docket # 18-cr-620 (PGS). When the hearing of oral arguments was completed, His Honor stated that he would have a ruling in two weeks.

It has been 6 weeks and I am just curious if there are any problems and if Mr.'s delay is normal. I realize that it is a complicated case and am glad that Judge Sheridan is doing his due diligence.

It's just that the conditions are ~~even~~ worsening here concerning the lockdown and with my health issues. My blood pressure is fluctuating and the physician's Assistant is recommending I consult with a neurologist for my cognitive issues. She also recorded that my heart rate was tachy. She is recommending a EKG.

I am concerned about my health.
